We also asked an additional question:

As a parent, which of the following would you welcome further information on?

- Drug awareness
 Mental health
 Sexual health
 Internet safety
 Other

Many parents ticked more than one topic. Overall, the priority order of topics was Internet safety, Mental health, Drug awareness and Sexual health. As a result of this we have organised a series of evening information workshops during the academic year 2017-18 for parents to attend and we have also ensured that there is up-to-date and relevant information available on our website.
